1218

This diagram shows a carburetor assembly. A separate component, labeled 51, is shown above the carburetor. This component is a float valve assembly, consisting of a float and a needle valve. The float valve is designed to regulate the fuel level in the carburetor's float chamber. The carburetor itself is shown in a side view, with the float valve assembly positioned to be installed into the top. The part number 1218 is located below the carburetor.
