## SB, 350 EPA, Cylinder, Bearing cap, 2003-02

The cylinder displacement has been increased for US/CA models. The displacement is now 51.7 cc (3.15 cu. in) compared to the previous 49.4 cc (3.01 cu. in).

The bearing cap has been modified to suit the larger cylinder. Old and new parts are not interchangeable. Saws manufactured after 2003-01-01 have the larger cylinder and the modified bearing cap. Saws manufactured before serial number 030103001 will be fitted with the cylinder assembly having part number 503 86 99-71.

Introduced from serial number: 350 030103001

New parts are:

Cylinder assy.	537 25 30-02
Piston assy.	537 22 34-02
Piston ring	503 28 90-11
Bearing cap	503 88 59-02

Version 967 01 18-xx replaces 967 01 13-xx.
