

MODEL 254

Starter compl.

Starter compl. (H 262) is introduced on H 254, in order to receive a more uniform design on our saws.

Advantages with this are:

- Increased air intake
- Less tendencies for clogging which means increased cooling of the engine
- Co-ordination of spare parts

At the same time XP and XPG decals are introduced instead of SE and SG.

NOTE! When changing the starter housing Ref. no. 50 18 676-03, the starter compl.

Ref. no. 503 54 16-01 + a new air conductor Ref. no. 503 54 40-01 must be mounted.

New Ref. no.	Description	Excluded Ref. no.	Remark
503 54 16-01	Starter compl.	501 86 75-01	
503 54 17-01	Starter housing	501 86 76-03	
503 17 89-02	Pulley compl.	503 17 89-01	Remains as a spare part
503 54 40-01	Air conductor	501 86 74-02	Remains as a spare part
503 54 45-01	Cassette	501 86 79-01	Remains as a spare part
503 21 30-08	Screw	729 22 23-01	
503 54 39-01	Starter handle	501 55 14-02	
503 23 00-35	Washer	503 23 41-01	
503 21 32-16	Screw	503 21 16-01	

The change is introduced from serial number 0150175.
