

RIDER 1200-14

IMPORTANT!

KNIFE WASHER 506 79 23-01

On machines from serial number 1071001 to 1071210 an incorrect knife washer is mounted. Due to surface treatment, the washer is too brittle and can therefore break. New washers will be sent out. The new washers are black compared to the old ones, which were zincified. All the zincified washers must be replaced before using the machine.
