

# AH models

## Switch

During the autumn of 1994 and spring of 1995 we have gradually replaced all switches on the ignition system and heated handles (G-version).

The switches have been improved as follows:

- Distinct positions
- Sealed against dirt
- Insensitive to vibrations
- Manueuverability

The improved switches can be identified by:

- New reference no.
- White back
- Reversed symbols

New Ref. No.	Description	Excl. Ref. No.	Remark
<b>503 71 79-01</b>	<b>Switch</b>	<b>503 08 97-02</b>	Earth strip to the right
503 71 80-01	Switch	503 48 65-02	Earth strip to the left
503 71 81-01	Switch heated handles	503 09 80-02	All G versions
503 71 82-01	Switch	503 09 83-02	Clearing saws
