

225/232/235

Starter pulley

A new starter pulley has been introduced with four teeth instead of six. This gives a safer pawl grip. The material is also new. It is more resistant to wear and does not absorb moisture from the air, which makes plastics softer.

New Ref. No. Description
503 77 53-01 Starter pulley

Excl Ref. No.
502 19 89-01
