MODEL: GTH 220 (Garden Tractor)

SUBJECT: Main Drive V-Belt Hydro Transaxle

There have been reports that the main drive v-belt comes off to the inside of the pulley between the pulley and the hydro transaxle. This has been found to happen on some units. Units affected are identified by their ID number which are 954 83 01-67A, 954 83 01-67B.

CORRECTION: Order 532 15 61-09 Belt Guide Kit. Instruction included. Install this bolt kit to correct. See picture below for area affected.
