SUBJECT: Incorrect Specification Numbers on MTD Products' Chipper/Vacuum

MODELS OR TYPES AFFECTED: OHH50/55

Tecumseh Products has produced approximately 800 OHH55's for MTD Products with incorrect specification numbers. These engines have a D.O.M. (Date of Manufacture) code of 6213 and have been put on MTD's Chipper/Vac model number 247-203B100. The CORRECT specification number should read OHH55-69024C, and some engines could read OHH50-68024C.

If you receive one of these units for service, please order decal number 34028 and place it on the blower housing. Print the CORRECT number OHH55-69024C. Then use a permanent marker to block out the incorrect specification number on the original identification label. See Illustration below.
